## Inmarsat SwiftBroadband Airtime:

### Monthly Plans

### Yearly Plans

Monthly Allowance	Monthly Cost	Price per MB	Additional MB
<b>Pay as you go*</b>	<b>\$215</b>	<b>~</b>	<b>\$6.38</b>
*Pay as you go plan includes the monthly keep alive service fee and the first 40 Megabytes for no additional charge. Any data usage over 40 MB's a month is billed at the Additional MB rate.			
<b>238 Megabytes</b>	<b>\$1,290</b>	<b>\$5.42</b>	<b>\$5.95</b>
<b>350 Megabytes</b>	<b>\$1,875</b>	<b>\$5.36</b>	<b>\$5.90</b>
<b>400 Megabytes</b>	<b>\$1,970</b>	<b>\$4.93</b>	<b>\$5.75</b>
<b>500 Megabytes</b>	<b>\$2,445</b>	<b>\$4.89</b>	<b>\$5.70</b>
<b>600 Megabytes</b>	<b>\$2,915</b>	<b>\$4.86</b>	<b>\$5.65</b>
<b>750 Megabytes</b>	<b>\$3,630</b>	<b>\$4.84</b>	<b>\$5.60</b>
<b>1,063 Megabytes</b>	<b>\$4,630</b>	<b>\$4.36</b>	<b>\$5.16</b>
<b>1,675 Megabytes</b>	<b>\$6,920</b>	<b>\$4.13</b>	<b>\$5.09</b>
<b>2,288 Megabytes</b>	<b>\$9,100</b>	<b>\$3.98</b>	<b>\$4.70</b>

Yearly Allowance	Yearly Cost	Price per MB	Additional MB
<b>Pay as you go*</b>	<b>\$2,580</b>	<b>~</b>	<b>\$6.38</b>
*Pay as you go plan includes the monthly keep alive service fee and the first 40 Megabytes for no additional charge. Any data usage over 40 MB's a month is billed at the Additional MB rate.			
<b>2,856 Megabytes</b>	<b>\$15,480</b>	<b>\$5.42</b>	<b>\$5.95</b>
<b>4,200 Megabytes</b>	<b>\$22,500</b>	<b>\$5.36</b>	<b>\$5.90</b>
<b>4,800 Megabytes</b>	<b>\$23,640</b>	<b>\$4.93</b>	<b>\$5.75</b>
<b>6,000 Megabytes</b>	<b>\$29,340</b>	<b>\$4.89</b>	<b>\$5.70</b>
<b>7,200 Megabytes</b>	<b>\$34,980</b>	<b>\$4.86</b>	<b>\$5.65</b>
<b>9,000 Megabytes</b>	<b>\$43,560</b>	<b>\$4.84</b>	<b>\$5.60</b>
<b>12,756 Megabytes</b>	<b>\$55,560</b>	<b>\$4.36</b>	<b>\$5.16</b>
<b>20,100 Megabytes</b>	<b>\$83,040</b>	<b>\$4.13</b>	<b>\$5.09</b>
<b>27,456 Megabytes</b>	<b>\$109,200</b>	<b>\$3.98</b>	<b>\$4.70</b>

These SwiftBroadband plans have a minimum duration of 3 months; if service is deactivated before the minimum duration period has ended the remaining balance for the minimum duration will be due upon cancellation. Plan Allowances do not include Streaming IP, ISDN and traffic to other mobile satellite services.

These plans include "Monthly Allowance" for Background IP data for the MB's in the plan. Data usage over the monthly allowance will be billed at the additional MB rate.

Yearly plans allow the aircraft operator more flexibility for airtime usage by allowing rollover airtime within the yearly period for times when flying time may be high or may be limited due to scheduling or aircraft downtime due to maintenance. Yearly Pre-Paid plans allow rollover of MB's from month to month but only within the yearly period. Data usage over the yearly allowance will be billed at the additional MB rate.

Custom plans are available—contact Air Sat One if you do not see a plan that meets your needs.

 <b>SwiftBroadband Voice</b>	<b>\$1.30 Per Minute</b>

## Additional Services:

Service	Description	Cost
FlightStream SA	This service enables basic compression techniques and enables advanced firewall features, which allows aircraft operators to block access to costly high-bandwidth websites such as YouTube, in addition to selected media content types such as flash, videos, and even images. Our customers can streamline their internet connection with just the features they want on their aircraft. FlightStream SA does not require the installation of hardware or software on individual's computers or mobile devices. <a href="#">More information.</a>	\$0
Smart Call	Smart Call allows users to place calls to the aircraft using our 1-800 number from any location in the world using a two-step dialing process (1-800 number and PIN). Registering your landline phone number in our system allows just the 1-800 number to be called without having to use a PIN code. <a href="#">More information.</a>	\$0
Smart Call Plus	Smart Call Plus allows users to place calls directly to the aircraft located anywhere in the world by simply dialing a pre-assigned 10 digit terrestrial number. Prefixes are available for most countries or cities. <a href="#">More information.</a>	\$20 / Month
Datalink	Flight Deck Connect™ (FDC) Datalink Silver Plan <b>bundled</b> with SwiftBroadband and/or Viasat Ka or Ku - including Yonder. Air Sat One provides World-Wide Datalink for AFIS/ACARS, FANS 1/A and VDL Mode 2 through the Iridium Satcom, Inmarsat Satcom and VHF networks. For more information and detailed price guide visit our <a href="#">Flight Deck Connect web site.</a>	\$6,995 Yearly <b>Bundled Price</b>

## Special Mission / Advanced Interconnect:

Advanced Interconnection: Live Video / Advanced Security / Encryption		
Our advanced interconnection solutions are customizable and designed for customers that want to stream live video and/or have a need for advanced security or to implement encryption.		
Custom IP Address <ul style="list-style-type: none"> <li>Public Static</li> <li>Private Static</li> </ul>	<p>“Public.Static” type guarantees a dedicated public IP address to a SwiftBroadband terminal. It facilitates the implementation of various business applications like remote access or corporate access.</p> <p>“Private.Static” IP sessions are securely terminated at the customer’s or end-user’s premises and can be used to enable static authentication mechanism based on the SwiftBroadband terminal fixed IP address. “Private.Static” is also a solution of choice when mobile-to-mobile communication is required.</p>	\$19.00 a month
Custom Interconnection Solutions	ISDN, IPsec, VPN Tunnel, and MPLS	Call

## Air Sat One Exclusive SwiftBroadband Features

Feature	Standard	Additional	Note
 Background IP	✓		Internet Access through Satcom with Air Sat One's custom global infrastructure.
 Custom Seatback Cards	✓		Internet access instruction's, Wi-Fi login, cost per Megabyte, guide to turn off automatic downloads & etc. Customized to your aircraft and needs.
 Wi-Fi Calling	✓		Use your own smart phone and your existing phone number. Our Flightstream™ SA will allow <a href="#">Wi-Fi calling</a> to pass un-interrupted. Regular data usage charges apply.
 Web Filtering	✓		Block audio, video, animated media, flash, remove advertisements, block URL's, block file type, limit file size, block categories. Part of <a href="#">Flightstream™ SA</a>
 Firewall	✓		Globally deployed network security for your aircraft. High level features for IT professionals. Predefined settings or custom settings. Accessible through <a href="#">Flightstream™ SA</a> .
 Compression	✓		Text and picture compression - adjustable, display light webpages. Whitelisting available. Accessible through <a href="#">Flightstream™ SA</a>
 Consumption Tracking	✓		Detailed consumption for usage monitoring or for passenger bill back, automated email notifications and pop-up window on devices on the aircraft. Track usage by flight, by the aircraft or the fleet.
 Streaming		✓	Streaming for a dedicated connection for special applications including video and audio. Stream at 8, 16, 32, 64, 128 kbps and X-Stream™.
 Smart Call	✓		Call the aircraft through a <a href="#">1-800 number</a> .
 Smart Call Plus		✓	Assign a <a href="#">10 digit phone number</a> , with your chosen country code & area code, to the aircraft for easy calling.
 Public Dynamic IP Address	✓		
 Private Dynamic IP Address	✓		Our standard default is Private Dynamic IP Address.
 Public Static or Private Static IP Address		✓	Used for remote access or corporate access or for mobile to mobile communications for special mission applications.
 VPN		✓	VPN Tunnel used to securely connect the aircraft to corporate or government networks.
 ISDN		✓	On demand interconnection over single or multiple ISDN channels with guaranteed bandwidth
 IPsec		✓	Cost-effective and easy-to-install interconnection via IP-Sec encryption technology.
 MPLS		✓	Virtual point-to-point terrestrial link with guaranteed bandwidth for high-quality applications.

# 24/7 Support

Keeping your passengers and flight crew connected is important. Air Sat One has you covered with a 24/7 technical support team manned by factory trained and highly experienced aviation, SatCom and networking personnel.

## About Air Sat One:

Air Sat One is a Satcom service provider that specializes in aircraft satcom, both for the cabin and the flight deck. Customers include business jet operators, VVIP, and government agencies. We offer advanced connectivity solutions, including aircraft network security, advanced firewall protection, filtering, on-line data management, ISDN, IPsec, VPN Tunnel, MPLS and government-grade encryption.

## Global Network:

We can connect your SatCom system to the same generic network used by our competition, or we can connect your aircraft to our highly advanced custom global network of teleports and interconnect points of presence (PoPs). Air Sat One's [Flightstream™ SA](#) is deployed on our custom global network providing high-end network security and connection management features. Teleports are located in Santa Paula, California, Southbury, Connecticut, Aussaguel (FR), Eik (NO) & Yamaguchi (JP). IP PoP interconnects are located in New York City, London (UK), Amsterdam (NL), Aussaguel (FR), Oslo (NO) & Hong Kong.

 **Our backbone and its efficiency matter to the passengers on your aircraft.**

## Flight Deck Connect™ (FDC):

For Datalink equipped aircraft, Air Sat One provides World-Wide **Datalink** for AFIS/ACARS, FANS 1/A (ADS-C & CPDLC) and VDL Mode 2 through the Iridium Satcom, Inmarsat Satcom and VHF networks. We deliver Datalink communications to and from the flight deck through the Aeronautical Telecommunication Network (ATN) to Air Traffic Control (ATC). Datalink traffic is also routed through our network to a variety of axillary networks allowing us to provide critical information to the flight deck and to allow communications with Flight Service and Support providers. [Price Guide](#).

## Fleet Services:

Air Sat One's [Fleet Service](#) packages are available upon request. Fleet Services are designed for customers operating 2 or more aircraft under the same corporate entity to enjoy the benefits of a Shared Corporate Allowance Plan. Our Flightstream™ SA is available to fleet operators for web filtering, network security and data consumption tracking. Changes can be made to a single aircraft, an entire fleet or a group of aircraft in the fleet and can be made at any time, from the ground without having personnel access the aircraft.
